Experience

Frontend Developer Internship | [Certificate](#)   April 2024 - Current
Frontend Simplified

- Converted a static HTML, CSS, JavaScript, and React single-page application into a dynamic and engaging user interface by incorporating animations, transitions, and carousels.
- Managed API requests using Axios to fetch and display data from a cloud server, implementing features such as skeleton loading states, pagination, and dynamic routing for a seamless user experience.
- Leveraged Git for version control and collaborated efficiently in a virtual team environment through GitHub.

Freelance Frontend Developer   May 2023 - Current
Self Employed | Pywebsolutions.ca

- Developed and delivered 5 high-quality, professional websites using **HTML5, CSS3 (with SCSS and BEM), Tailwind CSS**, **Wordpress, JavaScript,** and **React**, following industry best practices
- Enhanced website performance by implementing image compression, caching strategies, and lazy loading for faster load times
- SEO optimization, responsive design, multi-platform compatibility, and hosting support, enabling their website to be used by any browser or device in the world

Frontend Developer Support   Sep 2023 - Current
Frontend Simplified

- Provided guidance to over 1,000 students in mastering HTML, CSS, Flexbox, JavaScript, and React, emphasizing best practices
- Applied debugging techniques using Google Chrome's developer tools to troubleshoot and resolve issues
- Simplified complex programming concepts, including responsive web design, CSS layouts, Promises, and API integration,
